

**Grant County Smoke Detector Project**  
***“Smoke Detectors Save Lives”***

The goal of the **Grant County Smoke Detector Project** is to purchase and install smoke detectors in the homes of every Pre-K and Elementary-age student in the County. Teams trained by your local fire department will come to each home and install or replace your current smoke detectors in recommended locations. Once installed, the smoke detectors require no maintenance for ten years. The project is supported by donations and there is **no cost** to participants.

- Yes, I would like new or updated smoke detectors installed in the house or apartment in which my children and I reside.
- I want to keep my current smoke detectors but would like a free fire-safety review.
- Thank you, but I do not wish to participate.
